Performance Standards for Admission to and Retention in the Associate of Science in Nursing and RN-BSN Degree Programs

A candidate for the Associate of Science in Nursing and RN-BSN degree programs must have abilities and skills of four varieties: **Motor Skills, Sensory/Observation, Communication, Cognitive, Behavioral/Emotional, Professional Conduct.** Reasonable accommodations may be made on an individual basis as directed by the Disabilities Coordinator; however, a candidate is expected to perform in an independent manner. Please read the performance standards for admission and progression in the nursing program.

Motor Skills: Candidates should have sufficient motor function so that they are able to execute movements required to provide general care and treatment to clients in all health care settings. (For example: For the safety and protection of the clients, the candidate must be able to administer intravenous, intramuscular, subcutaneous and oral medications; apply pressure to stop bleeding; open an obstructed airway; provide patient/client daily hygiene care; perform basic life support, including CPR, and function in an emergency situation. The candidate must have the ability to safely assist a client in moving, for example, from a chair to a bed, or from a wheelchair to a commode.)

Sensory/Observation: A candidate must be able to acquire the information presented through demonstrations and experiences in the basic and nursing sciences. He or she must be able to observe a client accurately, at a distance and close at hand, and observe and appreciate non-verbal communications when performing nursing assessment, planning, intervention, and evaluation. The candidate must be capable of perceiving the signs of disease and infection as manifested through physical examination. Such information is derived from images of the body surfaces, palpable changes in various organs and tissues, and auditory information (client voice, heart tones, bowel and lung sounds).

Communication: The candidate must communicate effectively and sensitively with other students, faculty, staff, clients, family, and other professionals. He or she must express his or her ideas and feelings clearly and demonstrate a willingness and ability to give and receive feedback. A candidate must be able to: convey or exchange information at a level allowing development of a health history; identify problems presented; explain alternative solutions; and provide education. The candidate must be able to communicate effectively in oral and written forms. The candidate must be able to process and communicate information on the client's status with accuracy in a timely manner to members of the health care team. The appropriate communication may also rely on the candidate's ability to make a correct judgment in seeking supervision and consultation in a timely manner.

Cognitive: A candidate must be able to measure, calculate, reason, analyze, integrate and synthesize in the context of undergraduate nursing study. The candidate must be able to quickly read and comprehend extensive written material. He or she must also be able to evaluate and apply information and engage in critical thinking in the classroom and clinical setting.

Behavioral/Emotional: A candidate must possess the emotional health required for the full utilization of his or her intellectual abilities, the exercise of good judgment, and the prompt completion of all responsibilities attendant to the diagnosis and care of clients and families. In addition, s/he must be able to maintain mature, sensitive, and effective relationships with clients, students, family, staff and other professionals under all circumstances including highly stressful situations. The candidate must have the emotional stability to function effectively under stress and to adapt to an environment that may change rapidly without warning and/or in unpredictable ways. The candidate must be able to experience empathy for the situations and circumstances of others and effectively communicate that empathy. The candidate must know that his or her values, attitudes, beliefs, emotions, and experiences affect his or her perceptions and relationships with others. The candidate must be able and willing to examine and

(continued)

change his or her behavior when it interferes with productive individual or team relationships. The candidate must possess skills and experience necessary for effective and harmonious relationships in diverse academic and working environments.

Professional Conduct: Candidates must possess the ability to reason morally and practice nursing in an ethical manner. Candidates must be willing to learn and abide by professional standards of practice and South Georgia State College's School of Nursing policies. S/he must possess attributes that include compassion, empathy, altruism, integrity, honesty, responsibility and tolerance. Candidates must be able to engage in client care delivery in all settings and be able to deliver care to all client populations including but not limited to children, adolescents, adults, developmentally disabled persons, medically compromised clients, and vulnerable adults.

I have read the Performance Standards for Nursing and attest that I am not aware of any condition and/or disability that would interfere with my ability to comply with each and every requirement outlined in the document.

SGSC Waycross Campus Access Statement

If you have a disability and require reasonable classroom accommodations, make an appointment during office hours. If you plan to request accommodations for a disability, please register with the Office of Disability Services in Room 130, Dye Building, phone number 912-449-7593 or 912-260-4435.

Background Check, Urine Drug Screening, Immunizations, and CPR Certification.

Clinical facilities utilized by South Georgia State College School of Nursing require a background check, a urine drug screen, immunizations, titers and CPR certification (American Heart Association or American Red Cross) prior to attending clinical. Based on the results of these screenings, the agencies may choose to disallow a student to attend clinical at their respective sites. To complete the nursing curriculum, students must be able to attend clinical. Failure to do so would result in the inability of the student to complete the program of study. Students must meet the facilities' requirements and deadlines as established by the SGSC School of Nursing.

Georgia Board of Nursing

In Georgia, applications for licensure received from individuals who have been charged with or convicted of a felony, a crime involving moral turpitude, a crime violating a federal law involving controlled substances or dangerous drugs, or a DUI or DWI will be reviewed by the Georgia Board of Nursing. The Board has the authority and responsibility to determine who will be licensed as a Registered Nurse in Georgia.
